Our Philosophy:

Club Koa is a West Hills/Calabasas based volleyball club established for girls ages 11-18, designed to provide a high-level volleyball experience with skilled, experienced coaches, all at an affordable cost. Entering our 8th season, we have grown every year of our existence, and are now one of the largest clubs in the San Fernando Valley! We strive to develop our athletes into mature, responsible young women who will hone their volleyball skills, work ethic, and self-discipline, while competing in a fun and competitive atmosphere.

Our Coaches:

Each of our head coaches is an experienced high school coach. Our staff includes multiple high school "coach of the year" award winners, a former Division 1 college assistant coach, a former college recruiting coordinator, and other highly trained coaches! We are dedicated to giving your daughter the best coaching possible!

Our Focus:

We place an emphasis on teaching correct fundamentals and technique, and instilling a growth mindset in our players. We believe that a solid foundation and an intentional process will lead to exciting results. We desire each player to grow and have fun every time they walk into the gym!

Our Results:

Club Koa teams consistently experience superior growth throughout the season. Among last year's highlights: Our 15-Blue team finished the year ranked over 100 spots higher than their original ranking and medaled at the Summer Soiree, both of our 17s teams had top 10 finishes in national tournaments, and our 12s team filled with first time club players reached the Gold division of SCVA! Over the years, we have had experienced teams finish in Division 1 (SCVA's top division), and we have seen beginning teams grow exponentially throughout the year, including a 20 match winning streak! Most importantly, we experience an extremely high percentage of our athletes returning to Koa each year! We'd love for you to come join the Koa family!
